Transportation Rail Incident Preparedness & Response “Flammable Liquid Unit Trains”

This 8-hour training program utilizes curriculum developed by numerous agencies working with the U.S. Department of Transportation’s Pipeline and Hazardous Materials Safety Administration (PHMSA). The class provides critical information on best practices related to rail incidents involving unit trains hauling flammable liquids such as petroleum crude oil and ethanol.

Highlighted are lessons learned from past experiences leveraging the expertise of public safety agencies, rail carriers and industry experts to prepare first responders to safely manage unit train rail incidents.
